

A SHOWER OF STONES

Badly Damaged a Car on Big Consolidated at Cleveland.

ARREST OF A BOYCOTTER.

Fears Entertained That the Withdrawal of Troops May Tend to Encourage the Strikers to Further Act of Lawlessness.

Cleveland, Aug. 4.—In addition to the attempt to blow up a Jennings avenue car on the South Side, reports received at police headquarters show that cars were stoned in various parts of the city, although so far as learned no one was injured.

On Myers avenue a shower of heavy stones fell upon Brooklyn car No. 38, smashing the windows and otherwise damaging the car. The conductor promptly drew his revolver and fired five shots in the direction whence the stones were thrown.

Three shots were fired through the windows of a Pearl and Scoville avenue car near the Nickel Plate station on the West Side, and a little later two rocks were sent crashing through the windows of the same car. No arrests were made.

The troops have been gradually withdrawn from the city during the past few days until now not to exceed 500 soldiers remain. Fear is expressed in many quarters that as a result the lawless element will again resume the outrages that marked the early stages of the strike.

Charles C. Trieste, a barber, was the first man to be placed under arrest for taking part in the boycott. The warrant, which charged violation of the statutory rights law, was sworn out by Patrolman Isaacs, who alleges that the barber refused to shave him because he had ridden on the Big Consolidated cars. The case was continued to August 7. Trieste is out on bail.

TAKING TO THE WOODS

Are the Hostile Indians Along the Northern Mexican Border

INSURRECTION IS GROWING.

In Dealing With It Mexican Authorities Will Adopt American Motto That "the Best Indian is a Dead Indian."

City of Mexico, Aug. 4.—Dispatches from Guayamas show that the Yaqui insurrection is constantly growing in extent and all the Indians in the towns along the river are rising in arms and taking to the woods and mountains to take up with their companions already arrayed against the authorities.

Jack Ramsay, the famous frontier character, and the American photographer, Ed Miller, were on the way to Alamos when they were attacked by the Indians and killed.

Three sloops in the Yaqui river near Medaro were also attacked, and Aurilio F. Paredes, who was in charge of them, was killed. The vessels were set on fire, but were saved by Federal forces, who drove the savages away. The body of Paredes was found floating in the river. One of the sloops, the Alondra, was again attacked as it was leaving the mouth of the river on its way back to Guayamas, but the Indians were scattered.

It is reported that the Romero family were captured as they were about to embark on one of the sloops, and that Paredes was killed in trying to rescue them.

Troops are pursuing the bodies supposed to have the family. The telegraph line south from Guayamas has been cut. The Indians along the Mayo river are quiet and do not seem inclined to join the insurrection.

Colonel Angele Garcia Pena telegraphed that Don Carlos, the noted merchant, had not been killed as reported.

Official advices state clearly that after General Torres' forces took Bacum they found 10 dead of the troop from Cocori and four of the bodyguard of the Yaqui chief Maldonado and the body of Hale. They say nothing has been heard of the chief.

It is believed the United States will not be called upon to protect the Arizona border, as there is a sufficient force in Mexico to exterminate the Yaquis. General Canadado significantly remarked, "We will fight on the American motto that the best Indian is the dead Indian."

Lynching Party After Him.
Birmingham, Ala., Aug. 4.—John Thomas, a negro, was surrounded in a swamp near Cuba by a lynching party and wounded in a number of places during a running fight with the posse. He finally managed to make his escape with the posse still after him. On Wednesday night he entered the room of Mrs. C. W. Stallworth, wife of a prominent sawmill operator, and attempted to assault her. The negro slightly wounded several members of the posse.

New York, Aug. 4.—Lucius M. Sloan, who arrived here from Havana a few days ago and was arrested at quarantine on charge of having been concerned in the theft of \$1,000 in Havana, was discharged from custody. Sloan's counsel said that even if his client were guilty he could not be sent back to Havana for trial, inasmuch as no extradition or rendition treaty exists between this country and Cuba.

Washington, Aug. 4.—The marine hospital received word today that several hundred tents and a quantity of cots had been turned over to the Hampton home from Fort Monroe to allow camping of about 1,500 of the inmates in the home grounds while the barracks are being disinfected. There was no report of cases. This is taken to indicate that the disease is at a standstill.

Thought They Were Spies.
New York, Aug. 4.—Burt Collins and Harold Havens, students of Leland Stanford university, arrived here from Brazil. They went to Brazil, they say, to study certain geological formations near Pernambuco, but the authorities thought they were spies seeking information concerning Brazilian fortifications. The students, however, were not prevented from returning to the United States.

Christina, Aug. 4.—At the session of the inter-parliamentary conference a motion of Messrs. Samuel J. PROMOTING VETERANS

Executive Committee of Cuban Assembly Giving Out Commissions.

EMPTY HONORS BESTOWED.

General Ludlow's Action in Snatching the "Reconcentrado" Is Commended—Stormy Meeting of the Academy of Sciences.

Havana, Aug. 4.—The executive committee of the late Cuban assembly is still promoting veterans. By its last resolution Satoris, the alcalde of Gibara, was made a brigadier general.

The Diario de la Marina endorses the Patria's approval of the action of General Ludlow in suspending the "reconcentrado." The only complaint against him is that he did not act before.

A stormy meeting has been held at the Academy of Sciences to protest against the admission of American lawyers and doctors to practice in Cuba after examination or without examination. Two hundred persons were present.

Favor a Strike.
New Haven, Conn., Aug. 4.—A local committee of the Telegraphers' union say that those members of the union who are employed by the New York, New Haven and Hartford Railroad company are in favor of a strike in case the officials of the railroad company do not consent to hear the complaints of the operators. About 800 operators have been polled by mail and replies have been received from 521 of this number. All but nine are said to favor a strike. From other sources it is learned that the officials of the railroad company, while willing to listen to grievances from their employees direct, will refuse to be approached by outsiders.

Franco-American Treaty.
Washington, Aug. 4.—Recent information received here is to the effect that the Franco-American treaty is in rather a precarious condition, owing to the opposition developed among the French agricultural elements. While the indications are that the French government will be able to secure majorities if an issue is made on the treaty, the unexpected violence of the opposition gives cause for much solicitude among those instrumental in bringing about the arrangement.

For the Dewey Parade.
New York, Aug. 4.—The Dewey reception committee has received a telegram from Adjutant General Henry of the state of Mississippi asking if the number of troops from outside states invited to take part in the land parade is limited. WEATHER FORECAST:—Showers and
probably thunderstorms to-night and probably
Sunday.

AND now they are speaking of Ex-Gov. Brown as a Presidential possibility. Nothing more is needed now to completely turn his head.

SOME days ago the tin plate trust announced that it had advanced the wages of its workmen 15 per cent. This was heralded as an evidence of the great prosperity of the country under the administration of Mr. McKinley. "The statement, so far as it went, conveyed a mediocrum of truth, but covered a greater amount of fraud and misinformation," says the Youngstown Indicator. "The order issued increasing the wages only included 7000 out of 19,000 employees of the trust. These were held to be skilled workmen, and the other 12,000 wage earners received no increase whatever. At the same time this order granting an increase of 15 per cent. to less than one-half the men employed went out, another order was issued increasing the price of tin plate from \$2.78 a box to \$4.37, so that it was not the trusts in reality that made the advance in wages, but the consumers of the trust product. This was one of the frauds hidden from the public in the patriotic announcement."

THERE are 70,000 negro votes in Kentucky, not more than half of whom until 1896 had ever voted at any election. They have a poll tax in Kentucky and the negro voter rarely pays this tax. In 1896 the Republican National committee paid the tax and gave each negro voter his certificate. This added nearly 40,000 votes to the Republican column, practically wiping out the 35,000 and 40,000 Democratic plurality of former years. If two Democratic candidates run for Governor in Kentucky this fall and this vote is brought to the polls, it is more than silly to predict Democratic success. It is no sure thing with one candidate and a harmonious party.—Georgetown (O.) News-Democrat.

Living as close to Kentucky as Br'er Eyalr does, he certainly ought to be better informed on the above subject. It is not necessary at all for the negro or any one else to pay his poll tax in Kentucky to entitle him to vote. Up to a few years ago there was in Maysville and probably in some few other cities in Kentucky a poll-tax qualification for voters, but this was only in elections for municipal officers, and cut no figure at all in State and county elections.

While the colored vote in Kentucky has heretofore been solidly Republican, but there are indications now that at least a portion of it will be polled for Goebel next November. They are not pleased with Gen. Taylor, their party nominee, for several reasons, chief among them being the belief that he and his friends are in sympathy with the separate crach law.

An Ex-Chaplain Praises Goebel.

[Winchester Democrat.]
Rev. W. B. Cooper, of Pine Grove, was for a long time chaplain of the penitentiary, and consequently was familiar with public men. He knew Senator Goebel well, and says he was one of the best public servants at the Capital. He was sober, industrious, always at his post and always conversant with the matter under consideration. Brother Cooper thinks Mr. Goebel would make an ideal Governor and one of whom the State would be proud.

Spaul's Greatest Need.

Mr. R. P. Olivia, of Barcelona, Spain, spends his winters at Alken, S. C. Weak nerves had caused severe pains in the back of his head. On using Electric Bitters, America's greatest blood and nerve remedy, all pain soon left him. He says this grand medicine is what his country needs. All America knows that it cures liver and kidney trouble, purifies the blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. If weak, tired or ailing you need it. Every bottle guaranteed; only 50 cents. Sold by J. J. Wood & Son, druggists.

NO USE FOR BROWN.

A Pen Picture of the Leader of the Bolt-ers, Drawn by Col. Walton.

[Stanford Interior Journal.]

We never have been an admirer of the late John Young Brown and no charges can be laid at our door that we ever wasted any flattery on him. He always appeared to us to be a narrow-minded, small-bore politician, full of petty spite and jealousies, and in no way whatever worthy of the praise and the high position accorded him by certain sycophants, both of the press and the politicians. He is a man of the strongest prejudices and the most unforgiving in his enmities. He is an implacable foe of Gen. P. Watt Hardin, and we happen to know that he advised and laid the plans for a campaign against him that his bitterest Republican enemy would have revolted at. Let Mr. John Young Brown run at the head of the bolters. His star set on the announcement that he would do so and his candidacy will prove so great a farce and a failure that he will go into deeper oblivion than those who have gone before by the bolters' route. He won't get half as many votes as Hindman and will not come out of the scrimmage near as honorably.

WELL KNOWN HERE.

Was Sam Thomas Who Died This Week at Longview Asylum, Cincinnati.

Sam Thomas, the merchant tailor who died at Longview Asylum, Cincinnati, Wednesday was well-known through all sections of Kentucky, having lived at Maysville at one time. We think he went from Augusta to Cincinnati; at any rate he lived there many years ago.

Mr. Thomas was one of the best known men in the Queen City at one time, and was quite wealthy. He was a man of fine appearance and size and was one of the best dressed men to be seen in Cincinnati during the heyday of his career. His sympathies were with the South during the war and he befriended many a poor Confederate. He finally drifted to New York City, where business misfortunes overtook him, when he returned to Cincinnati, but never succeeded in establishing himself again.

Mr. Thomas flourished at Cincinnati about the same time another man, who also went from Maysville, was carrying on there,—Sam McKee.

One Medium Will Not Reach All.

Almost everybody nowadays is interested in the subject of newspaper advertising, either as an advertiser or a reader of advertisements, says the Hartford Post. Where, when, how and to what extent to advertise, is the study of every up-to-date business man who has long ago determined that advertising has got to be done somewhere and somehow if he would keep up with the procession. There is no infallible guide in the selection of a single medium, to the exclusion of others, where several exist, for the use of anybody who for business reasons desires to catch the public eye. Every newspaper in a given field has its distinctive friends and readers, each of whom expects to find in its columns about all that is essential to his individual requirements.

A Cabinet of Rich Men.

[Buffalo Courier.]

The Cabinet is now equally divided between the East and the middle West, but there is no member from west of Iowa or south of Missouri. Nearly every member of the Cabinet is very wealthy. Hay married the daughter of Amasa Stone, the Cleveland millionaire. Gage was President of one of the leading national banks of the country. Long is independently rich. Hitchcock is a protected manufacturer. The two able attorneys, Root and Griggs, are best known as corporation lawyers and Griggs has no time, he says, to fight the trusts. It is emphatically a capitalistic aggregation.

Fine Export Cattle.

W. B. Griffith, of Paris, bought in Clark County this week seventy-nine export cattle from Penn Taylor, forty-five from J. C. VanMeter, 104 from Harvey Rogers and sixty-nine from F. B. Wall. These cattle weighed from 1,400 to 1,550 pounds, and were bought at 4 and 5 cents per pound. Last week Mr. Griffith bought sixty-eight export cattle from Horace Miller, of Paris, and thirty-seven from J. C. Scobee and forty-nine from G. W. Rash, of Winchester, at from 4½ to 5 cents. These cattle weighed from 1,350 to 1,425 pounds.

Grant County O. K. For Goebel.

[Williamstown Courier.]

The bolt in Kentucky against the Democratic nominee, Wm. Goebel, is being largely magnified. There is no bolt in Grant County. The Democratic candidate will get the usual Democratic majority. There may be and probably are a few Democrats who will refuse to vote for Mr. Goebel, but they are very scarce.

—Mrs. John Butler and son, of Covington, are guests of her brothers, Messrs. Ed. and John Leonard, of Fourth street.

H. E. GABBY will preach at Aberdeen Baptist Church Sunday afternoon at 3 o'clock.

MR. WILLIAM HAINES, of the C. and O. yard crew, is practicing a new code of signals this morning, adopted in honor of the "big fellow" that arrived at his home last night.

THERE are sixty applicants for the position of Deputy Warden of the Frankfort penitentiary. Pat Punch, Jr., of Mt. Sterling, will serve in that capacity until after the November election.

COL. C. B. RYAN, A. G. P. A. of the C. and O., of Cincinnati, has a Kentucky trotter which he has driven a mile in 2:26. She has never had any track training but Col. Ryan thinks she can trot better than 2:20.

REV. CLARENCE REID, who has been a missionary of the M. E. Church, South, at Seoul, Korea, for a number of years, will return with his family to Winchester to reside some time in the near future.

THE C. and O. fast train No. 2 struck John Irwine, aged eighty-three, and instantly killed him at the Main street crossing at Vanceburg Friday. His death in this manner has been expected for some time, as he was old and hard of hearing, and had had numerous narrow escapes.

By the deal for the sale of the Evening News, the oldest paper in Paducah passed into the hands of Robert M. Gates of the Nashville American. B. G. Boyle of the Louisville Post, and Harry Giovannoli of the Danville Advocate, are in the deal. The price paid was \$22,500 in cash, J. E. Robertson, the proprietor, retaining \$1,500 in stock. The new management will probably change the policy of the paper and support the ticket to be headed by Gov. Brown and Maj. Johnson.

THE News gives a gloomy outlook for crops in Bourbon. It says: "Bourbon seems to have suffered more from the drouth than most any county in Kentucky, for Government crop reports tell of rain in many sections. In this county the grass is burned to the roots, and the corn and hemp crops will only yield half an average crop. The tobacco crop will also fall short. Farmers report that they may have to cut their green corn to feed the cattle if the drouth is not soon broken."

"SPEAKING about remarkable men," said Mr. J. Barnes Caldwell to the Danville Advocate, "twenty-five years ago Ben Nail, of Marion County, was run over by a big wagon. When he was taken to the house he was speechless and apparently unconscious, but he could hear everything that was said by those around him. Several doctors were called in, and all gave it as their opinion that his death was just a question of time. To-day the gentleman is hale and hearty at ninety-five, and has outlived every physician and a good many of his neighbors."

THIS dispatch from West Union tells of a new swindling scheme: "A sharp pair of swindlers, probably man and wife, are working neighboring towns. A woman book agent strikes a town and goes from house to house leaving books for examination. Next day a man calls to inquire if the books are wanted. A few days later the woman again makes her appearance, and on being informed that the man has taken away the sample books, begins to weep piteously and says he has been collecting her books all over town. She pleads poverty and in almost every instance receives some compensation."

VOLTAIRE,

The great French philosopher,
once asked this riddle:

What is the longest and yet the shortest thing in the world; the swiftest and the slowest; the most divisible and the most extended; the least valued and the most regretted; without which nothing can be done; which devours everything, however small, and yet gives life and spirit to everything, however great?

Remnants speak loudly in favor of goods. If they hadn't been pretty they wouldn't have sold down to remnants lengths. Of course the half prices apply only to the remnants; no reason to make the whole pieces cheaper.

"BRIDGE" WORK.

A Decision of Importance to the Dental Profession Throughout the Country.

[Cincinnati Post.]

The New York decision of this week which says that crown and bridge work on teeth is protected by patent, means much to dentists all over the country. The case was fought twelve years and cost millions.

The bridge in litigation was patented in 1881, and the patent has now expired. The case as brought to court does not restrain dentists from using the patents now, but simply establishes Dr. Sheffield's claim, upon which judgment Sheffield is authorized to collect a royalty from all dentists that have used the patents since 1881.

Dentist Molyneux said Friday: "Dentists' attention has been called from time to time for years to the fact that there were patents on all bridgework now in common use. The Dental Protective Association was formed for protection against Dr. Sheffield, who claimed a patent on everything. The decision simply means about \$8,000,000 for Sheffield. He will collect royalties from dentists for work done in years gone by. A similar case was tried in Cincinnati in 1861. Josiah Bacon was the patentee of the rubber plate. He made every dentist pay royalties. He went about the country collecting. He was finally killed in San Francisco by a dentist over a disputed claim."

A BIG RAIN.

An Old-time "Gully Washer" Fell Last Night—Total Precipitation 2.93 Inches.

The rain last night was the heaviest that has fallen in this section for several months.

It began shortly after 5 o'clock, and at first many thought it would prove only a light shower, but the clouds got heavier and heavier and the downpour increased until it amounted almost to a cloudburst.

The local observer reports that the total rainfall for the twenty-four hours ending at 6:30 this morning amounted to nearly three inches—the exact figures being 2.93 inches. This is more than fell all during July, the total for last month amounting to only 2.47 inches.

The rain was badly needed as the extreme heat this week was badly injuring corn and tobacco.

DANVILLE has adopted a "curfew" law. It provides "that children under sixteen years of age shall not be in the streets after 8 p. m. from October to March, inclusive, or after 9 p. m. in other months, without proper guardianship. The court house bell shall be rung fifteen minutes before the appointed time as warning, to be called the "Curfew Bell," after which a child is required to be in his home or off the streets, unless accompanied by parent or adult guardian, or bears a written statement of that date signed by parent or guardian, declaring that said child is on an emergency errand. A parent or guardian may be summoned for permitting his child to habitually break the law and may be fined one dollar, without costs, for the first offense; second offense two dollars, and for a third or any subsequent offense five dollars.

A HEADQUARTERS detective is investigating a case which is not only peculiar but pathetic. The story was reported by Miss Kittle Turner, the charming young daughter of George W. Turner, deceased. At the time of his death Mr. Turner held the position of assistant city chemist. He overworked himself during the recent smallpox epidemic and finally contracted a cold, which resulted in his death. Naturally his death was a great shock to his widow. Some two years ago Mrs. Turner gave a tintype photograph of her husband to one of those "photo enlarging" companies. It was the best picture she had of her husband. When she received the enlarged picture she was not satisfied with it and returned it. Since then she has been trying to secure the tintype without avail. It was not until after her husband's death that she made a decided effort to recover the tintype, but the company paid no attention to her repeated requests. She wants the police to aid her in recovering the picture.

The above is taken from the Cincinnati Times-Star, and is verified every few days at our Studio. Moral: Don't give your orders to agents. Leave them at CADY'S ART STUDIO, where the original picture will be safe and the enlarged picture will please you.

ARMED KENTUCKIANS

March to Manchester to Attend Trial of Green Griffin.

London, Ky., Aug. 4.—A force of about 15 mounted men, armed with Winchester and Colt revolvers and a good supply of ammunition, passed between here and Pittsburg, going in the direction of Clay county.

They were members of the Griffin faction, and it is supposed that they joined those who have gone into Manchester to attend the examining trial of Green Griffin. Griffin is to be tried for the killing of Edward Fisher in the big battle two weeks ago in Clay county. There is no telling whether trouble will occur or not.

Investigation Needed.

Lancaster, Pa., Aug. 4.—Sigmund S. Albert, son of a well known merchant of this city, has resigned from West Point Military academy, where he has been a cadet more than a year. The alleged reason for his resignation is that he was subjected to persecution because of his being a Hebrew.

Veteran Cyclist.

Upper Sandusky, O., Aug. 4.—James A. Kappe, an old veteran of the Mexican and also of the civil war, of Martinette, Wis., passed through Forest on his wheel. He is on his way to Philadelphia to attend the G. A. R. encampment. He is 84 years old, and will make the trip on his wheel.

Mayor on the Rack.

Atlanta, Ga., Aug. 4.—Unless he submits his resignation before Monday next, "Printer" Mayor James G. Woodward will doubtless be forced out of office on impeachment proceedings. He will be charged with improper and immoral conduct and being intoxicated.

Crushed by a Railway Train.

Humboldt, Iowa, Aug. 4.—At the wagon road crossing on the Chicago and Northwestern railway two miles east of Dakota City three young men and their team were instantly killed. Nothing was found by which the victims could be identified.

Anvils For Rent.

New York, Aug. 4.—A Brooklyn manufacturing company has just shipped 40 300-pound anvils to the Chinese Eastern railroad at Vladivostok, where the company also shipped 13 large machine shop anvils.

The English "Society for the Prevention of Consumption" presided over by the Prince of Wales, was recently addressed by Sir William Boardman, who stated that it was definitely known that every case of consumption began with a germ communicated from some other case. There is no such thing as inherited consumption. There may be local weakness which tends to consumption, but the germ has absolutely to be planted in that weak spot before consumption can ensue. This ought to confront thousands of people who have "weak chests" or "weak lungs." They are not foreordained victims of this dread disease. All that is needed to bid absolute defiance to this deadly scourge, is to be able to strengthen the weak lungs, and build up a strong body. The answer to this need is found in Dr. Pierce's Golden Medical Discovery. It so purifies the blood and increases the blood supply, that disease is thrown off, and the weak organs are nourished into perfect health, which defies germs of every kind. People, given up by doctors, emaciated, bleeding at the lungs, with obstinate, lingering coughs, are being cured every day by the use of "Golden Medical Discovery." It is a strictly temperance medicine containing no alcohol, whisky or other intoxicant.

PITHY POLITICAL POINTS.

Whenever you gild a Democrat you destroy his Democracy.

Democracy and gold are as far apart as the poles, and like oil and water they will not mix.

It's the fellows that don't get what they want that make up the bolters' crowd as a very general thing.

There's no kind of a Democrat that amounts to much but the plain, old-fashioned one that sticks to the text.

We hardly think Mr. Brown would have been a bolter to-day had he gotten the nomination at Louisville, which he doubtless hoped he would.

Is Mr. Brown actuated by a regard for the State for the Democratic party or simply in the interest of plain Mr. Brown, in his present most reprehensible course?

The BULLETIN correspondent set the pace in comparing renegades of various kinds of the present time to Benedict Arnold, and now it has been taken up all along the line.

That it was never intended that individuals should amass millions upon millions of dollars in this Republican government at the expense of the people the case of the great snob, William Waldorf Astor abundantly demonstrates.
